PROJECTS

Blog-Project (02/2023 - 02/2023)

- Tools used: ExpressJS, VS code, CSS, API Integration
- My role: I'm doing this mini project as a POC to improve my knowledge of ExpressJS and hands-on experience in reactJS. This project helps me to improve my skills in using JS frameworks to develop websites.

Online Voting Portal (05/2022 - 05/2022)

- Tools used: ReactJS, JS, MySQL, XAMPP server, PHP
- My role: To development basic frontend and to develop the backend task for the voting portal and to manage data stored in the database.
- Description: This project provides us ability to vote online and from anywhere for current polls running on the voting portal.

Basic Programming Quiz App (09/2020 - 09/2020)

- Tools used: Reactjs, Bootstrap
- My role: Coded the frontend for quiz webApp.
- Description: It is a basic programming quiz app to check our programming knowledge in C,Java.

CERTIFICATES

Docker for Absolute Beginner on Udemy (01/2024 - 01/2024)

Gives me understanding of how orchestration, containerization works & different docker commands to use docker images.

Express Essential Learning (01/2023 - 03/2023)

-Working on Express project (API Manager, Mini projects on expressJS based on JWT tokens.).

Master Data Structures & Algo. using C (11/2019 - 01/2020)

-got lot of learning about data structures & algo. to build my Computer Science skills.
